

## **St. Joseph perfins**

Frank Perry Walker lives in Sun City, Arizona, but he grew up in St. Joseph, Missouri, and he has a special fondness for perfins from the home town of the Pony Express. Frank contends that C-107, unidentified in the U. S. Catalog, was used by the old C. D. Smith Drug Company of St. Joseph, and that T-64, the TLB pattern, also unidentified in the catalog, was used by the Tottle Lacy National Bank of St. Jo. Unfortunately, says Frank, he can't provide covers to prove either claim. Seems that in his misguided youth, when he called perfins "branded stamps," he soaked the copies he has off the covers that came to his father's office. Now, can anybody come up with a cover to confirm what Frank knows but can't prove?
